PNC380 Device

Wireless Basic

Specifications

1- Battery Capacity: 4000 mAh.

2- Memory: RAM: 1GB, ROM: 8GB.

3- 1 Nano SIM card slot.

4- Supports 2G,3G,4G.

5- Drop-proof 1.2 M.

6- 5 MP rear camera.

7- Supports flash.

8- Supports calling.

9- PNC380 Pro: NFC Supported

10- USB charger port.

11- Dimensions(H×W×D) mm 145.1x 60 X 26.1mm.

12- Weight: 208g.

PNC360S Device

Wireless Basic

Specifications

1- Small size and light weight.

2- Battery Capacity: 4000 mAh.

3- Speaker Power 2W.

4- Memory: RAM: 1GB, ROM: 8GB.

5- 1 Nano SIM card slot.

6- Charging port: Type-C.

7- Supports 2G,3G,4G.

8- Drop-proof 1.2 M.

9- Dimensions (H x W x D) 104mmx54.6mmx26.5mm.

10- Weight About 190g.

PNC560 Device

Smart Wireless

Specifications

1- Battery Capacity: 5,040 mAh.

2- Memory: RAM-4 GB, ROM-64 GB.

3- 2 Nano SIM card slot.

4- Supports 2G,3G,4G,5G.

5- Camera: Front: 8 MP, Rear: 48 MP*and 8 MP.

6- Charging port: Type-C.

7- Speaker Power 3W.

8- Supports calling.

9- NFC Supported.

10- Drop-proof 1.5 M.

11- Dimensions(H×W×D) 166.6 x 77.1 x 13mm.

12- Weight About 270g.

13- Android 12 operating system

PNC460 Device

Smart Wireless

Specifications

1- Battery size: 4,580 mAh

2- Space: 6GB RAM + 128GB ROM.

3- Number of SIM card slot (2).

4- Supports 2G, 3G, 4G, 5G.

5- Supports a rear camera with a resolution of: 50 MP; Front: 8 MP.

6- Type-c charger port.

7- Speaker power 3W.

8- Supports calling.

9- Supports NFC feature.

10- Resistance to falling to a distance of 1.5.

11-Dimensions: 164×77×23mm.

12-Weight: 337 grams.

13- Android 12 operating system

VM780 pro Device

Wireless smart camera

Specifications

1- Battery size 3500mAh.

2- USB charger port.

3- Fall resistance 2M.

4- Supports night vision at a distance of up to 10m.

5- A camera with a resolution of more than 16 MP

6- Dimensions: length 116 mm, width 61 mm, thickness 26 mm.

7-Weight: 205 grams.

8- Supports NFC

9- A flexible camera that rotates up to 216°

10 - supports 3G, 4 G

11 - Number of SIM cards: 1 SIM

12 - Sound power 2 w

SC580 Device

Wireless smart camera

Specifications

1- Dimensions (90 mm x 55 mm x 26.3 mm)

2- Weight (158 grams)

3- Battery capacity (3600 mAh)

4- Storage capacity 128 GB

5- Supports 4G.

6- 2 inch screen.

7- Video resolution 1080p@30fps.

8- Front camera + rear camera.

After sales service

Includes 24/7 technical support, immediate maintenance, training, and replacement devices

Competitive advantages

Stable network

Preferring the best network in the area of use and connecting to it to ensure the stability of the network quality

Various packages

Packages have been prepared with varying features and customized prices to suit different businesses.

Nedaa application

The Nedaa application was developed to work on all devices such as PTT devices, PC, and Smart phone

Hardware quality

We work to provide modern, high-quality PTT devices through reputable companies

Operations rooms

We provide our customers with integrated solutions for operating rooms and their integration with security systems in a professional manner

After-sales services

introduction :

At Nedaa, we are keen to provide distinguished service to our customers by giving them a unique experience. Therefore, we believe that development in after-sales services and investment in customer satisfaction is what gives the real value in providing the best experience to our customers and gaining their loyalty.

Service features

SLA agreement

This agreement is granted to the customer to inform him of the level of service provided throughout the contract period, and includes response time, the mechanism for resolving problems and filing reports, the escalation mechanism, and direct communication information with officials.

Free maintenance

Nedaa provides certified device maintenance centers free of charge to its customers throughout the subscription period, while providing an alternative device when the device requires maintenance for more than 24 hours.

Regular inspection visits

Regular appointments are scheduled to visit customers by the after-sales service department to inspect the quality of service and identify any difficulties that customers may face in order to deal with them and resolve them proactively.

Comprehensive warranty

Nedaa grants a comprehensive warranty on its devices against manufacturing defects or operating problems during the contract period.

Free additional hardware

Nedaa grants free spare devices to every customer (two devices for every 100 devices)

Technical support 7/24

Nedaa provides high-speed support to its customers seven days a week to implement all requests and handle complaints professionally through multiple communication channels such as email supportptt@nedaa.sa, or the unified number 920021755 for the communications and chat center on WhatsApp.
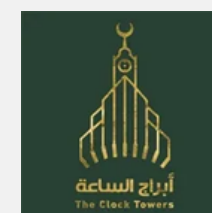

Training and knowledge transfer

Nedaa provides comprehensive training to users to deal with Nedaa devices and systems, and gives continuous guidance to customers on the best use of devices and systems.
